EXPERIENCE

Front End Developer Intern.

Mobius by Gaian Solutions.

July 2025 - Present

Hyderabad, Telangana

Mernstack Developer Intern.

HealthOFin.

November 2024 - June 2025

Remote

PROJECTS

Face Recognition-based Online Meeting System

- * Designed and developed an Online Meeting System with integrated face recognition for secure and efficient virtual collaboration.
- * Enhanced authentication and user experience through advanced face recognition technology.
- * Built a scalable system supporting multiple users and meetings for seamless collaboration.
- * Created a user-friendly interface to streamline the meeting process and improve usability.
- * **Tools Used:** Python, MySQL, HTML, CSS, JavaScript, Visual Studio Code

react-prompt-palette (NPM Package)

- * Built a reusable prompt management UI component for creating, organizing, and reusing AI prompts.
- * Helped reduce prompt repetition by 60% through intuitive design, local storage, and folder structure.
- * Surpassed 500 downloads within two weeks, gaining traction among AI and developer communities.
- * **Tools Used:** React, TypeScript, TailwindCSS

EDUCATION

Teegala Krishna Reddy Engineering College.

Bachelor of Technology in Computer Science and Engineering. CGPA: 7.7.

2020 - 2024.

Hyderabad, Telangana.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python

Databases: MongoDB
